# HARBOR, RIVER

### Shipping Transactions and Notes of Interest Along The Bay Front.

The following vessels left for sea yesterday: British steamship Barrister, British steamship Haddonhall.

The lighter Escambia has arrived from Florida Town with 330 barrels of naval stores.

The river steamer J. P. Williams arrived yesterday morning from Milton and Blackwater with 170 barrels of naval stores. She left for Milton at 1 p. m., where she will load 128 bales of cotton for Marks & Gayle, of this city, and seven bales for Mo-

shore. The vessels, as well as the shore station, are provided with wireless telephone apparatus, which is used to transmit the sound of a submarine signal bell. The difference in time which it takes for the sound to be transmitted by wireless telephony and to travel through the water enables the receiver to determine the distance of the sending station from

distance of the sending station from him.

A Sailing Ship Combine.

Low freights and the increasing invasion by the tramp steamer of trades formerly looked upon as best suited for the sailing ship make bad times for the latter. The difficulty experienced in making their vessels pay has led two Glasgow firms of sailing ship owners to form a new liability company under which their vessels will be operated as one fleet.

Sunday School at 9:30 a. m. Friday. April 9, and 10, song m. Friday. April 9, and 10, song m. Friday. April 11, 1909.

## It Takes Less Time To Do Your Cooking on a Gas Range

Because, First, the fire's ready for you to get right down to your work with the simple turning of a valve and striking a match. Second, the heat of the gas range is concentrated right under the vessel in which the food is being cooked, and practically none of it is wasted. When carefully used, gas for cook ing is less expensive than any other fuel. Cut off the gas when not using. Matches are cheaper than gas. Cabinet Range installed for Gas Range, regular, installed for \$13.50. In over 1400 homes in Pensacola.
